# Grain Cleaners

Authentic S. Howes Ball Screens & Metal Frame Screens Available

The constant ball agitation aids particle stratification and prevents screen blinding for more efficient cleaning, even when used with materials which tend to clog easily. Metal frames provide for a durable, long lasting life.

Eureka Barbeau Drive Provides Years of Low Maintenance Operation

The grain cleaner is driven by our **Barbeau oscillating, eccentricless drive** which controls the vigorous, yet smooth screen action that maintains production efficiency.
