

Food & Pet Food Processing

Food manufacturing operations are often challenged with unique process requirements and regulations. Our range of food processing equipment is robust, reliable, efficient and features sanitary designs for compliance with USDA, FDA, ATEX, CE, and European standards. All stainless steel and special high-polished finishes minimize residue build-up during processing and provides easy access for quality control and cleaning.

Our innovation center and testing lab is available to test your food or pet food products with our processing equipment.

Industrial Process Equipment

- Mixers
- Screw Conveyors
- Separators & Screeners
- Size Reduction

Mixing & Blending

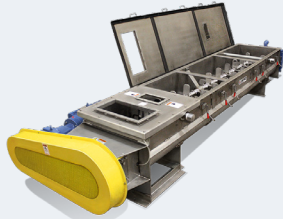

The S. Howes line of sanitary mixers is built to meet the rigorous demands of the food and pet food processing industries. Both batch and continuous mixers are available with several agitation designs to provide a superior, uniform blend without product degradation.

Sanimix Mixer

Batch Ribbon Mixer

Continuous Paddle Mixer

Laboratory Mixer

ES Sanitary Mixer

Separating & Screening

We offer a variety of equipment for food and pet food screening including centrifugal power sifters and shakers.

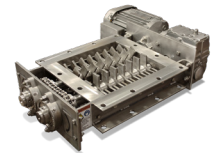

Power Sifter

Snappy Shaker

Power Grater

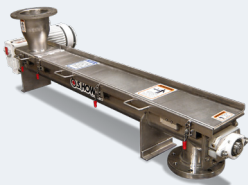

Lump Breaker

Size Reduction

Heavy-duty designs for reducing foodstuffs and pet food ingredients for further downstream processing.

Screw Conveying

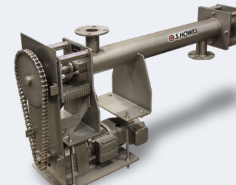

Sanitary screw conveyors are custom built to meet food and pet food standards and are available in u-trough, tubular, split tube, and heating and cooling designs.

U-Trough

Thermal Conveyor

Tubular Feeder

Split Tube
